

CompManagement, Inc.

A Sedgwick CMS Company

Lake County Chambers of Commerce can offer you a real opportunity to save money through our workers' compensation group rating program

Although each of the five Lake County Chambers of Commerce (LCCC) functions autonomously, they all share the same common goals. One of those goals is to save member organizations money in lots of ways.

Through our partnership with CompManagement, Inc. (CMI), you may be eligible to save significantly on your workers' compensation premium rates.

What is workers' compensation group rating?

Group rating permits employers with better-than-average claim histories to join together through a sponsoring organization, like the LCCC, for the purpose of being rated as a larger group. By participating in group rating, employers enjoy a much lower premium than could be attained on their own.

Are any chamber members realizing savings?

As a small business owner and member of the Mentor Area Chamber of Commerce, we are privileged to be members of the workers' compensation group rating program. As a member of this group of small businesses, we are able to save significantly on our workers' compensation premiums. In these economic times, cost savings is very important to our success. Membership in

both the Lake County Chambers and the workers' compensation program has proven to be a benefit to our business in many areas. Steven C. Lucic, Revive-It, LLC

I have been pleased with the group rating that I have received through my membership in the Painesville Area Chamber and their affiliation with CMI. Several years ago, I had an issue with the BWC. Because of a \$40.00 late payment, I was penalized in excess of \$15,000. CMI worked with me to finally get the problem resolved.
